**REPORT OF INTERNAL CONTROL STRUCTURE REQUIRED BY
SEC. RULE 17a-5 FOR A BROKER-DEALER CLAIMING AN EXEMPTION
FROM SEC. RULE 15c3-3.**

To the Board of Directors
Pointe Capital, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Pointe Capital, Inc. (the "Company") for the year ended December 31, 2007, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons;
2. Recordation of differences required by Rule 17a-13; and
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

To the Board of Directors
Pointe Capital, Inc.
February 26, 2008

Page Two

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, by not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use of disposition and transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of the inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted the following matters involving the control environment, accounting systems, control procedures, or procedures for safeguarding securities and their operation that we consider to be material weaknesses as defined above. These conditions were considered in determining the nature, timing, and extent of the procedures to be performed in our audit of the financial statements of Pointe Capital, Inc. for the year ended December 31, 2007, and this report does not affect our report thereon dated February 26, 2008.

To the Board of Directors
Pointe Capital, Inc.

Accounting Functions

The number of personnel handling accounting transactions, in general, limits the overall effectiveness of internal accounting control due to the lack of segregation of duties and responsibilities in the same areas of the accounting function. Management must remain aware of this limitation and monitor cash receipts and disbursements to insure that no unusual transactions are occurring and going undetected.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, except for the matters described in the preceding paragraphs, we believe that the Company's practices and procedures were adequate at December 31, 2006 to meet the Commission's objectives.

This report is intended solely for the use of the Board of Directors, management, the Securities and Exchange Commission, the New York State Exchange, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.

INDEPENDENT AUDITORS' REPORT

To the Stockholders
Pointe Capital, Inc.

We have audited the accompanying statements of financial condition of **POINTE CAPITAL, INC.** as of December 31, 2007 and 2006, and the related statements of operations, changes in equity, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Company Operations and Concentration of Credit Risk – Pointe Capital, Inc., is engaged in the securities and investment brokerage business. The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the National Association of Securities Dealers (NASD). The Company monitors its cash balances which at times exceed FDIC insurance coverages.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

Marketable Securities – Marketable securities are valued at fair market value. The resulting difference between cost and market is included in income as an unrealized investment gain or loss.

Receivables – Receivables are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. At December 31, 2007 and 2006, no allowance was deemed necessary by management.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2007**

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes – The Company was a limited liability company through March 24, 2006. Accordingly, no provision for income taxes was necessary during this time period, as the profits and losses of the Company are reported by the members of the Company. The Company converted to a corporation on March 24, 2006. Accordingly, income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to the timing differences between recognizing income and expense for tax and financial statement purposes, primarily for amortization. As of December 31, 2007 and 2006, the Company has an income tax benefit primarily related to net operating loss carryovers, and goodwill amortization. This income tax benefit is offset by a corresponding valuation allowance. Accordingly, the Company has no income tax provision for the years ended December 31, 2007 or 2006.

Cash and Cash Equivalents – For purposes of the statements of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Goodwill – The Company has recorded Goodwill for various business acquisitions, for the excess of the cost of an acquisition price over the fair value of acquired net assets. Subsequently, goodwill is written down only when, and if, impairment is identified and measured, based on future events and conditions. During 2006 and 2007, the Company acquired goodwill as more fully disclosed in Note 6. The Company recognized impairment losses of \$1,250,000 and \$600,000 for the years ended December 31, 2007 and 2006, respectively.
